

# SealGreen Garage Floor Sealer

Size	Makes	Covers
Pint	1 Gallon	400 sqft
Quart	2.5 Gallons	1,000 sqft
Gallon	10 Gallons	4,000 sqft
5 Gallons	50 Gallons	20,000 sqft
55 Gallons	550 Gallons	220,000 sqft

## Application –

- Surface must be clean with no coatings of any kind.
- Use a low-pressure sprayer with a fan tip.
- Apply a light single coat to an area which can be wet for 10 – 15 minutes. Depending on the level of smoothness, 10 minutes for floors with smooth surfaces and 15 minutes for floors with very smooth surfaces. DO NOT allow the sealer to dry on the surface. All surfaces need to be wet. Do not walk on the wet sealer and then on other concrete surfaces that are not going to be sealed.
- Remove all excess sealer with a squeegee without leaving any puddles or wet streaks.
- Allow surface to totally dry.
- As a final step, it is recommended to buff the floor with a clean dust free microfiber pad or white floor maintainer pad.
