

SealGreen Kennel Cleaner

Size	Makes	Covers
Pint	1 Gallon	100 – 250 sqft
Quart	2.5 Gallons	500 – 1,000 sqft
Gallon	10 Gallons	2,000 – 4,000 sqft
5 Gallon	50 Gallons	10,000- 20,000 sqft
55 Gallon	550 Gallons	100k – 200k sqft

Application –

- Be sure to dilute cleaner to the SealGreen manufacturer’s instructions.
- Thoroughly apply the solution to all washable surfaces of the kennel. Use a stiff-bristle brush to do a light scrub from ceiling to floor, all walls and doors in between and resting boards. Don’t forget to scrub the fronts and backs of the kennel doors, hinges, lathes, and any other surfaces. The solution needs some time to work its magic, so allow it to stand for 5 to 10 minutes before you rinse.
- Thoroughly rinse all surfaces with a steady stream of water (preferably hot). Then dry the kennel as completely as possible with a squeegee and ventilation.
